

# ELECTRONIC ASSEMBLY FACILITY

CTC, Inc. was founded in 2007 as a privately-held firm specializing in communication and signaling engineering expertise. Over the last nine years, the firm has grown to become one of the most respected leaders in highway-rail grade crossing safety and intelligent signal systems engineering.

In 2015, CTC added an onsite, climate controlled electronic assembly facility to its headquarters in Fort Worth, Texas. With this expansion, CTC is proud to offer customers across the nation turn-key electrical and wiring solutions.

From the x-SYS product suite to customized signal bungalows, we provide all facets of material integration in-house. All of our products are assembled under the watchful eye of expert wiring technicians to ensure a safe and high-quality product. Each and every product undergoes extensive pre-testing prior to shipment or delivery to ensure installation goes as intended.

Contact CTC today at **817-886-8210** or visit us online at **ctcinc.com** to learn more about our electronic assembly services.
